INTRODUCTION

The advance of knowledge and the proliferation of technology "have been extremely rapid, especially since the 1950s. The speed of technoscientific progress is very high. In just about 100 years, we have gone from animal traction to space exploration. The digital and technological revolution is bringing its share of profound changes.

This research paper focuses on the complete and exhaustive analysis of technological innovations related to the COVID-19 vaccine, the vaccination certificate and digital identification and its biblical and eschatological implication.

I would show you in detail the different organizations, companies and government agencies involved directly or indirectly in the process of vaccination and digital identification.

All sources of this documentation are reliable, taken directly from the people and organizations involved. This study lists real facts and not taken from a conspiracy theory.

A serious research has been carried out, take the time to fully understand the information presented to you in this document.

All sources are available so that you can validate the veracity of my research.

GAVI THE VACCINE ALLIANCE

A vaccine against the coronavirus is under urgent development as they say the number of people infected with **COVID-19** increases, a process which could also result in a new range of highly **innovative DNA vaccine technologies** that ushers in a new era in the way we fight infectious disease but we know the plan behind

<https://www.gavi.org/vaccineswork/will-coronavirus-herald-new-era-vaccine-innovation>

Traditionally, most vaccines consist of a killed or attenuated form of the disease-causing virus or bacteria. When the vaccine has been administered, our body responds by producing antibodies against one or more antigens, such as proteins or carbohydrates, from that specific germ. This means that if we become infected in the future, our immune system is already primed to rapidly recognise and tackle the infection.

DNA-based vaccine works differently. A DNA fragment is built in the lab to resemble a section of the virus' DNA. This is injected, enters the patient's cells and instructs them to make viral protein

DNA BASED VACCINE

Newer DNA-based vaccines take a different approach. For coronavirus, rather than being made up of the coronavirus itself, they involve **injecting a fragment of DNA, but what kind of DNA they really use is the problem !!!** They say the DNA fragment is containing instructions to build the antigens found on the surface of the coronavirus. The cells use these instructions to assemble the antigens themselves. These are essentially just **fragments of the virus** which by themselves don't pose the same threat as the virus. But our immune system still recognises them as foreign and produces antibodies capable of recognising the complete virus in future. **With DNA and mRNA vaccines you just need the genome. GAVI is part of the Coalition for Epidemic Preparedness Innovations.**

NEURALINK IMPLANTABLE BRAIN-MACHINE INTERFACES (BMIS)

Neuralink Corporation is an American **neurotechnology** company founded by **Elon Musk** and others, developing **implantable brain-machine interfaces (BMIs)**. The company's headquarters are in San Francisco.

Elon Musk explained that **the long-term goal is to achieve symbiosis with artificial intelligence** which he perceives as an existential **threat to humanity** if it goes unchecked. **Neuralink's** overall driving mission was to help humans **keep pace with rapid advancements in AI**, ensuring that we can continue to work with ever-more advanced technology by closing the input and output gap between ourselves and computers. <https://techcrunch.com/2019/07/12/elon-musk-backed-neuralink-to-detail-its-progress-on-upgrading-the-brain-to-keep-pace-with-ai/>

WO2020060606 CRYPTOCURRENCY SYSTEM USING BODY ACTIVITY DATA

Human body activity associated with a task provided to a user may be **used in a mining process of a cryptocurrency system (electronic money)**. A server may provide a task to a device of a user which is communicatively coupled to the server. **A sensor** communicatively coupled to or comprised in the device of the user may sense body activity of the user. **Body activity data** may be generated based on the sensed body activity of the user.

THE SENSOR IS THE MICROCHIP AND THE USER DEVICE IS YOUR SMARTPHONE AND THE COMMUNICATION NETWORK IS THE CLOUD CONNECTED TO THE CRYPTOCURRENCY SYSTEM DE BLOCKCHAIN TECHNOLOGY

IT'S NOT THEORIES IT'S FACT AND IRREFUTABLE PROOF WITH EXCELLENT SOURCES

Different **types of sensors** can be used to "measure or sense body activity or scan human body," the patent explains. They include "functional magnetic resonance imaging (fMRI) scanners or sensors, electroencephalography (EEG) sensors, near infrared spectroscopy (NIRS) sensors, heart rate monitors, thermal sensors, optical **sensors, radio frequency (RFID)**" https://en.wikipedia.org/wiki/Radio-frequency_identification

<https://patentscope.wipo.int/search/en/detail.jsf?docId=WO2020060606>

Microsoft Technology Licensing, the licensing arm of Microsoft Corp., has been granted an international patent for a "**cryptocurrency system using body activity data.**" The patent was published by the World Intellectual Property Organization (WIPO) on March 26. The application was filed on June 20 last year. "Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system"

MIT GLOWING VACCINE INFORMATION BELOW THE SKIN'S SURFACE

MIT researchers have now developed a novel way to **record a patient's vaccination history**: storing the **data** in a pattern of dye, invisible to the naked eye, that is **delivered under the skin at the same time as the vaccine**.

In areas where paper vaccination cards are often lost or do not exist at all, and **electronic databases** are unheard of, this technology could enable the rapid and anonymous **detection of patient vaccination history** to ensure that every patients is vaccinated.

The researchers showed that their new dye, which consists of **nanocrystals called quantum dots**, can **remain for at least five years under the skin**, where it **emits near-infrared light** that can be **detected by a specially equipped smartphone**.

the patches deliver a pattern in the skin that is invisible to the naked eye but can be scanned with a smartphone that correspond to the type of vaccine delivered

"It's possible someday that this 'invisible' approach could create new possibilities for **data storage, biosensing, and vaccine applications**

"This study confirmed that **incorporating the vaccine with the dye** in the microneedle patches did **not affect the efficacy of the vaccine**

The **dots** are only about 4 nanometers in diameter, they are **encapsulated in biocompatible microparticles** that form spheres about 20 microns in diameter. This encapsulation allows the dye to **remain in place, under the skin, after being injected with the vaccine**

The research was **funded by the Bill and Melinda Gates Foundation**

NEPHILIM FALLEN ANGEL

The **Nephilim** are mysterious beings or people mentioned in the Bible. They are **large and strong**; the word **Nephilim** is loosely translated as **giants**. Some traditional Jewish explanations interpret them as **fallen angels**.
Genesis 6:1-4 - Ezekiel 32:27 - Numbers 13:33

There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare children to them, the same became mighty men which were of old, men of renown.
